Dynamic license optimization

App-Centre's optimal integration with the AssetStudio platform ensures that each application is combined with the correct software license, dynamically updating the Effective License Position (ELP) throughout the software lifecycle.

Business benefits through accurate and adaptive reporting

- ✓ **Define baseline** reports for future analysis for multiple user groups, organizational units or locations
- ✓ **Compare the results** from the baseline against actual usage in easy to understand charts, graphs and widgets
- ✓ **Identify cost savings** by company, line of business or department.
- ✓ **Report on savings** in money, time, CO₂, coal, water
- ✓ **Report on license shortfalls**, financial value of 'risk' compliance by vendor, product, version
- ✓ **'Real-time' compliance reports** by complete business or individual lines of business and departments
- ✓ **Usage reports** that identify candidates for software removal known as 're-harvesting'
- ✓ **Trend reports/graphs** to show progress over time

About Certero

Certero is a vendor and supplier of products and solutions for: Software Asset Management (SAM), Software License Optimization and Entitlement (SLOE) and IT Asset Management (ITAM). Complimented by tailored services, our mission is to provide the best solutions that work individually and holistically together, seamlessly and optimally on a single platform.
