IshanTech

COMPANY PROFILE

REDEFINING TECHNOLOGY

MALAYSIA DIGITAL

GREEN IT | IT SECURITY | IT INFRA

COMPANY PHILOSOPHY.

We are a solution provider for **Green IT, IT Security & IT Infrastructure**. Established since 2008, we have successfully implemented many turnkey projects as well as acting as consultants to various clients with regards to our main 3 pillars of strength which focuses in Green IT, IT Security and IT Infrastructure.

IshanTech (M) Sdn Bhd is a company dedicated to the reliable deployment of information technology for the development of business and culture, around the globe.

We offer a comprehensive range of value added systems and services focusing on the development and growth of information technology. With a strong group of technical specialists, experienced and competent management team, we are determined to provide value added systems and network solutions. We have taken a leading role as a systems and network consultant, targeting the broad range of small to medium to large sized enterprises with a focus on niche and vertical markets.

OUR MISSION.

Our mission is to leverage our deep ICT expertise to deliver innovative and reliable technology solutions that empower businesses to thrive. We aim to provide measurable business value to our clients and partners across industries through the strategic and advanced use of technology. We are committed to building long-term relationships based on trust, excellence, and shared success.

OUR VISION.

The vision of the company is to develop and market innovative products and services that have unparalleled advantages over existing solutions and to recognize and satisfy unmet needs for technological solutions in a changing world.

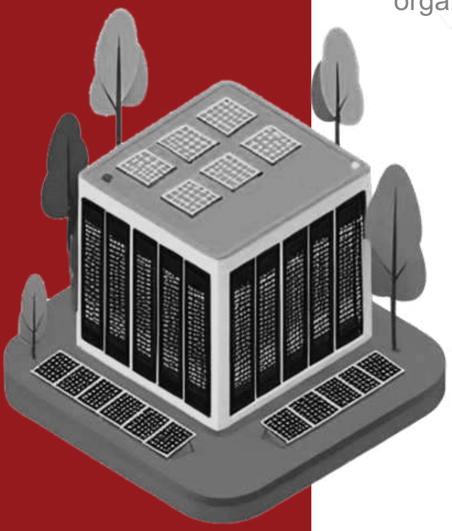
ABOUT US.

At IshanTech, we collaborate with industry-leading partners to deliver next-generation ICT solutions tailored for enterprise clients. Our strong network of strategic alliances spans key sectors including Antivirus Solutions, Forest Management, IT Asset Management, Data Recovery, Power Management, Enterprise Planning, Decision Support Systems, and Web-Based Solutions.

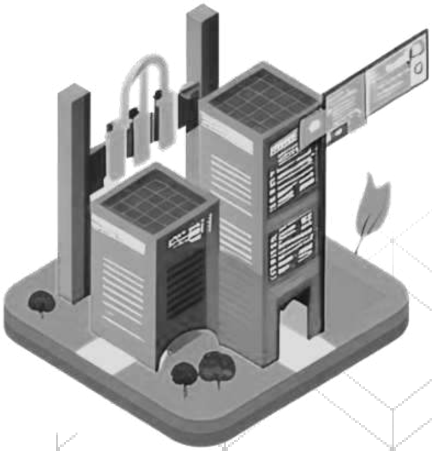
These partnerships enable us to offer end-to-end, integrated solutions that address evolving business needs. By leveraging shared expertise and technical integration, we ensure the seamless delivery of powerful, scalable applications designed for IT divisions, business analysts, database administrators, and developers—all aligned under executive leadership.

Our solutions are internet-ready, easily deployed, and user-friendly, empowering both technical and non-technical users with built-in intelligent technologies for efficient, turnkey implementation.

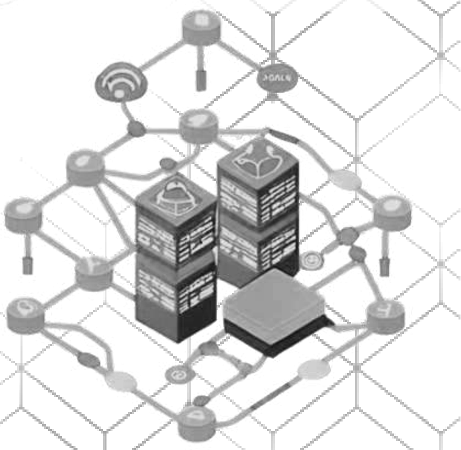
IshanTech collaborates with leading companies across key industries to deliver next-generation ICT solutions tailored to enterprise clients. By forming strategic partnerships and distributor relationships in areas such as antivirus, IT asset management, data recovery, and more, IshanTech provides comprehensive, end-to-end solutions across the region. Their platform enables easy development and deployment of internet-ready applications, empowering both technical and non-technical users within organizations to access and utilize information effectively.



Green IT



IT Security



IT Infrastructure

PROFESSIONAL SERVICES & IT SOLUTIONS.

IshanTech offers end-to-end professional services, including training, consultancy, software and systems development, business intelligence integration, and hardware supply. Our approach goes beyond technical implementation—we focus on understanding your industry, streamlining business processes, and leveraging the right technologies to deliver customized, future-ready solutions. We help organizations innovate, manage change effectively, and achieve faster, more predictable outcomes. Through collaboration and knowledge transfer, we empower our clients to continuously evolve their systems and strategies for long-term success.

CYBERSECURITY SERVICE & MAINTENANCE.

We provide a comprehensive suite of security and maintenance solutions designed to protect, support, and enhance your IT infrastructure. From IP-based security systems to alarm and projector installations, IshanTech ensures reliable protection across the board. Our network maintenance services include disaster recovery, preventive and corrective maintenance, ethical hacking, and penetration testing for both networks and web applications. We also offer full-spectrum support across hardware, software, and network systems.

Our expert technical support team is readily available via phone, fax, or email to assist with all products and services. Regular updates and new software releases ensure your systems remain secure and up to date. Additionally, we offer on-site training, in-house consulting, and cross-platform software development, including Windows, Linux, and Unix. As a trusted hardware provider, IshanTech delivers reliable IT peripherals along with full deployment and maintenance support. Our LAN/WAN network services ensure seamless integration, robust performance, and continued operational efficiency.

AV comparatives

Product of the Year 2024

Cybersecurity provider offering advanced protection solutions for individuals and businesses. Their offerings include antivirus software, endpoint security, server protection, and cloud-based management tools. ESET's products are designed to be unobtrusive, fast, and effective, allowing users to focus on their work without worrying about security threats.

For Home

Optimal online security for your personal devices.

HOME SECURITY

For Business

All-around protection of business endpoints, data and network.

BUSINESS SECURITY

For Enterprise

State-of-the-art cybersecurity for the enterprise segment.

ENTERPRISE SECURITY

HOME SECURITY SOLUTIONS.

Several enhancements to bolster protection against evolving cyber threats, including AI-driven attacks, ransomware, and identity theft.

Special solutions:

- NOD32 Antivirus
- Privacy Protection
- Smartphones
- Parental Control
- VPN
- Digital Privacy Protection

SMALL BUSINESS SECURITY SOLUTIONS.

Proactive protection against online fraud, data theft and human error

Anti-Theft

Easily lock, track and locate devices in case of loss or theft.

Safe Banking

Ensure safe online banking and transactions, plus protection from keyloggers.

Anti-Phishing

Evade scams and fake websites attempting to access sensitive information.

Unlimited VPN

Secure your connection and prevent unwanted tracking with an anonymous IP address.

Secure Data

Protect the data of your company and customers with powerful encryption.

Safe Server

Safeguard data on all general and network file storage servers running on Windows Server.

AV comparatives

Product of the Year 2024

ESET provides a balanced approach to digital security that empowers your organization to thrive. With layer upon layer of protection, each deploying proprietary technology that is designed to work in concert, ESET will improve your organization’s cyber resilience and keep your network safe from any existing or never-before-seen threats.

BUSINESS SOLUTIONS.

ESET provides scalable cybersecurity solutions for businesses of all sizes, with centralized management, layered protection, and advanced threat prevention capabilities. Managed Detection & Response services from ESET

CROWDSTRIKE SOLUTIONS.

BY USE CASE.

❖ **Cross-Domain Attacks**
Integrated defense across cloud, identity, and endpoint.

❖ **Ransomware Protection**
AI-powered prevention and rapid response to stop ransomware.

❖ **SOC Transformation**
Modernize your security operations with AI-native SIEM and automation.

❖ **Cloud Detection & Response**
Real-time visibility and threat detection across cloud environments.

❖ **Securing AI**
Protect AI/ML systems from misuse, data theft, and adversarial attacks.

BY INDUSTRY.

❖ **Small Business**
Simple, affordable cybersecurity with Falcon Go.

❖ **Law Firms & Insurance**
Specialized breach response and confidential data protection.

❖ **Federal Government**
Zero Trust, FedRAMP-compliant protection aligned with national standards.

❖ **State & Local Government**
Scalable protection against ransomware and APTs.

❖ **Financial Services**
Secure against fraud, phishing, and insider threats while meeting compliance.

❖ **Healthcare**
Defend patient data and medical systems from cyberattacks.

❖ **Election Security**
End-to-end protection for voting infrastructure and data integrity.

❖ **Education**
Safeguard academic data and digital learning platforms.

❖ **Retail**
Secure POS systems, customer data, and supply chains from cyber threats.

RidgeBot®

RidgeBot™ is an AI-powered automated penetration testing platform developed by Ridge Security. Designed for enterprise environments, it offers continuous, risk-based security validation without the need for specialized cybersecurity expertise.

RidgeBot® SOLUTIONS.

AUTOMATED PENETRATION TESTING:

- *RidgeBot™ performs agentless black-box testing, simulating internal and external attacks, including lateral movement, to identify and exploit vulnerabilities. It provides real-time attack action visualization and kill chain analysis.*

ADVERSARY CYBER EMULATION:

- *Simulates adversary tactics using the MITRE ATT&CK framework to assess endpoint security, data exfiltration risks, and Active Directory reconnaissance.*

API SECURITY TESTING:

- *Evaluates APIs against the OWASP Top 10 security risks, detecting issues like hidden paths and improper authentication mechanisms.*

WEBSITE TESTING:

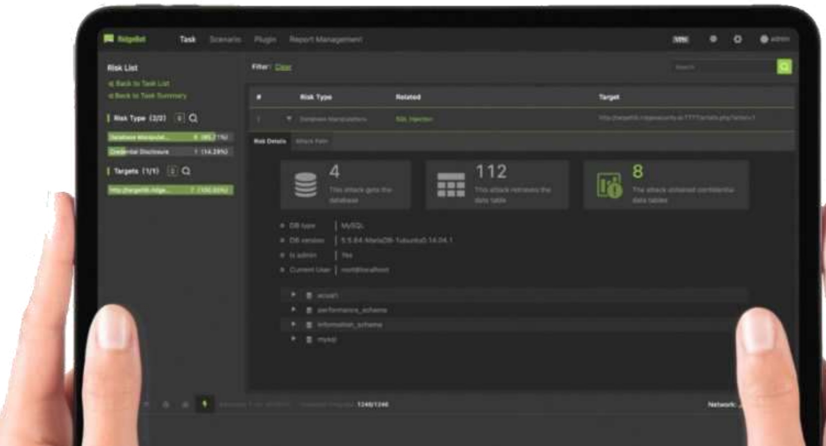
- *Assesses web applications for OWASP Top 10 vulnerabilities, including SQL injection, SSRF, and insecure deserialization. Supports both authenticated websites and Single Page Applications (SPAs).*

RANSOMWARE PROTECTION:

- *Simulates ransomware attack scenarios to evaluate organizational resilience and provides actionable remediation plans.*

VULNERABILITY VALIDATION:

- *Verifies whether identified vulnerabilities are exploitable in the specific environment, integrating with third-party vulnerability scanners for comprehensive analysis.*



- DB type | MySQL
- DB version | 5.5.64-MariaDB-1ubuntu0.14.04.1
- Is admin | Yes
- Current User | root@localhost

RidgeBot®

RIDGE
SECURITY

RidgeBot® KEY FEATURES.

COMPREHENSIVE ATTACK COVERAGE:

- *Targets a wide range of systems (Windows, Linux, Unix, MacOS, Web Servers, Database Servers, IoT, Virtualization Platforms).*

AUTOMATED VULNERABILITY DETECTION:

- *Utilizes intelligent decision-making (expert models and RidgeBot® brains).*
- *Supports automatic SQL injection testing and fuzzing engine for dynamic payloads.*

ADVANCED ATTACK TECHNIQUES:

- *Network Attacks, Local Privilege Escalation, Lateral Movement.*
- *Web API Penetration Testing and OWASP Top-10 Compliance Reports (2017 and 2021).*

VISUALIZATION & REPORTING:

- *Topology Mapping: Automatically generates a map of attack paths and vulnerabilities.*
- *Professional Reports with multi-language support (English, Spanish, Portuguese, Japanese, Italian, Korean).*

REAL-TIME VISIBILITY & RISK ASSESSMENT:

- *Provides real-time attack action visibility.*
- *Risk validation with proof of successful exploitation.*

DEVSECOPS INTEGRATION:

- *Supports integration with Jira, ServiceNow, GitLab for issue tracking.*
- *Co-branded MSSP Reports with customizable logos.*

CUSTOMIZABLE PENETRATION TESTING:

- *Customizable plugins for application fingerprinting, attack vectors, vulnerability detection, and exploitation.*

<PRE™ Security

2025 WINNER
CYBER SECURITY
EXCELLENCE AWARDS

PRE Security is a pioneering cybersecurity company that offers an AI-native, predictive SecOps platform designed to transform traditional security operations centers (SOCs) into proactive, intelligent defense systems. Founded by Paul Jespersen and John Peterson, the company leverages advanced technologies such as generative AI, predictive analytics, and agentic AI to enhance threat detection, incident response, and prevention capabilities

<PRE™ Security PRODUCT.

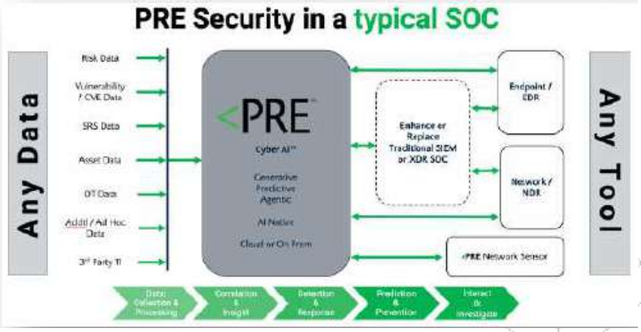
1. **AI SIEM (Security Information and Event Management)**

2. **GENERATIVE XDR (Extended Detection and Response)**

3. **PREDICTIVE AI**

4. **SOCGPT (Security Operations Center Generative Pre-trained Transformer)**

5. **GenAI EDR (Endpoint Detection and Response)**



Multiple Use Cases:

< SIEM Replacement
modernize your old infrastructure w/ all new AI Native Secops from PRE Security.

< SIEM Enhancement
Pre-process logs to reduce your SIEM ingestion requirements, improve data normalization.

< Generative XDR + Predictions
Upgrade your XDR to generative detections and add Predictive Analytics with PRE.

<PRE™ Security

2025 WINNER
★★★
CYBER SECURITY
EXCELLENCE AWARDS

PRE Security is a pioneering cybersecurity company that offers an AI-native, predictive SecOps platform designed to transform traditional security operations centers (SOCs) into proactive, intelligent defense systems. Founded by Paul Jespersen and John Peterson, the company leverages advanced technologies such as generative AI, predictive analytics, and agentic AI to enhance threat detection, incident response, and prevention capabilities

<PRE™ Security KEY FEATURES.

INGEST ANYTHING

❖- Universal Data Ingestion from any source.

❖- Patent Pending Parserless Technology.

❖- Support for unlimited data formats and data stores.

❖- Upload additional environmental context via PDF, Excel, Word, etc.

❖- Decouple log storage costs from analytics.

❖- Fixed Asset based pricing.

CORRELATE EVERYTHING

❖- Automatic data correlation across any data sources

❖- Multi-dimensional alerts with data enrichment

❖- Upload organizational-specific content to use as additional context

❖- Easily add additional threat feeds and security related information

GENERATIVE XDR DETECTIONS

❖- The PRE Security purpose-built CyberLLM™ dynamically detects known and emerging threats.

❖- Adaptive Threat Detection that evolves with new attack vectors.

INTERACT & INVESTIGATE IN NATURAL LANGUAGE

❖- Allows SOC teams to interact with security data in Natural Language queries powered by SOCGPT™.

❖- Provides immediate, context-rich responses for investigations.

❖- Leverages AI to rapidly identify hard-to-identify patterns of anomalous activities and behaviors.

PREDICTIVE ANALYTICS

❖- Proprietary Predict & Prevent™ capabilities analyze both historical and real-time data to predict future threats and vulnerabilities before they can be exploited.

❖- Proactively reduce risk and improve security posture.

❖- Transparent, Consensus Predictions.

PRESCRIPTIVE RESPONSE & PREVENTION ACTION

❖- Automated workflows provide real-time prescriptive guidance for threat response.

❖- Integrated AI automation for threat mitigation.

❖- Response Actions by Prompt and Automation.

DMARC ANALYZER

Protect your brand and reputation

EMAIL ARCHIVING & CONTINUITY

•Ensure email works and data is never lost

mimecast

PRODUCT SUITE.

EMAIL & COLLABORATION THREAT PROTECTION –

Defends all communication channels (email, chat, file-sharing) from advanced threats

DATA COMPLIANCE & GOVERNANCE –

Ensures regulatory compliance (GDPR, HIPAA, PCI-DSS), email continuity, and archive management

INSIDER RISK & DATA PROTECTION –

Monitors and mitigates insider threats, with data leak prevention policies

SECURITY AWARENESS & TRAINING –

Drives behavior change with phishing simulations, training .

KEY FEATURES.

- AI-POWERED THREAT DETECTION & SANDBOXING
- URL PROTECT & IMPERSONATION DEFENSE
- ATTACHMENT PROTECT & SANDBOX ANALYSIS
- INTERNAL EMAIL PROTECT (IEP)
- ARCHIVING & CONTINUITY
- HUMAN-CENTRIC TRAINING
- INTEGRATION & FLEXIBILITY
- SCALABLE CLOUD ARCHITECTURE

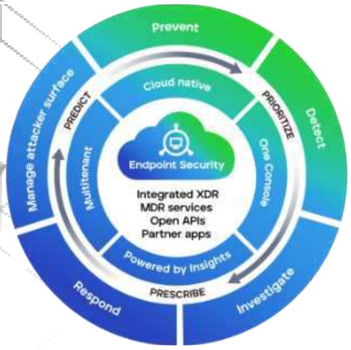
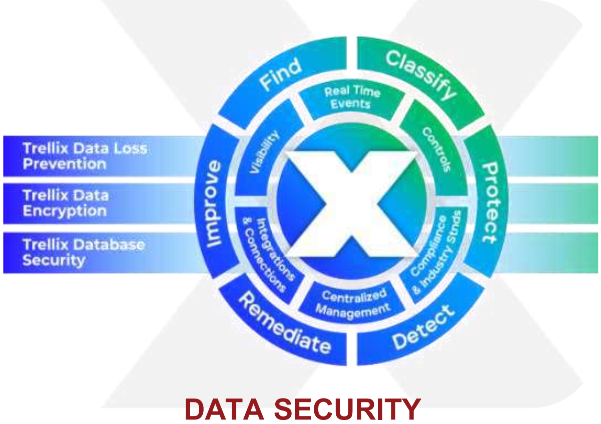
Trellix® is a cybersecurity company formed from McAfee Enterprise and FireEye, focused on transforming security operations through AI, automation, and analytics. Its unified, AI-powered platform provides advanced threat detection, investigation, and response across endpoint, email, network, cloud, and data security. With open architecture and integration with over 500 third-party tools, **Trellix** enables faster, more effective defense. Supporting over 50,000 global customers, it delivers a comprehensive, resilient security ecosystem through a strong partner network.

Trellix PRODUCT.



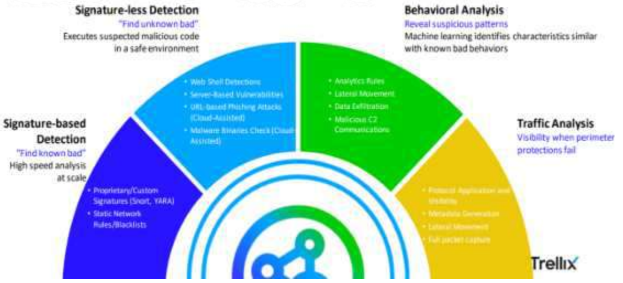
ENDPOINT SECURITY

- *Includes Trellix Endpoint Security (ENS), EDR, Forensics (HX), Application & Change Control, Mobile Security, managed via ePolicy Orchestrator (ePO).*



DATA SECURITY

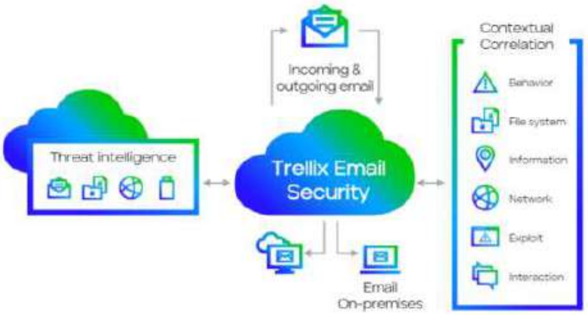
- *Offers Data Loss Prevention (DLP), encryption, and database security.*



Signature-less Detection
"Find unknown bad"
Executes suspected malicious code in a safe environment
Web Shell Detections
Server-Based Vulnerabilities
URL-based Phishing Attacks (Cloud-Assisted)
Malware Binaries Check (Cloud-Assisted)
Behavioral Analysis
Reveal suspicious patterns
Machine learning identifies characteristics similar with known bad behaviors
Analytics Rules
Lateral Movement
Data Exfiltration
Malicious C2 Communications
Signature-based Detection
"Find known bad"
High speed analysis at scale
Proprietary/Custom Signatures (Snort, YARA)
Static Network Rules/Blacklists
Traffic Analysis
Visibility when perimeter protections fail
Metadata Generation
Lateral Movement
Full packet capture
Trellix

NETWORK SECURITY

- *Features Network Detection & Response (NDR), Network Forensics, and Intrusion Prevention.*

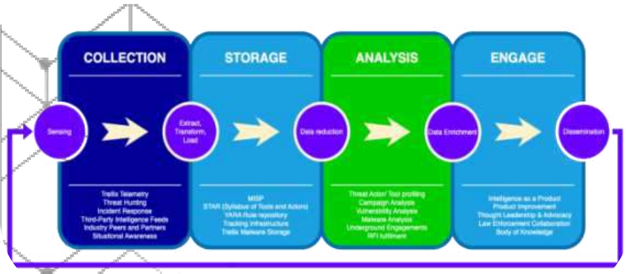


EMAIL SECURITY

- *Covers mail protection plus integrations with collaboration platforms (IVX).*

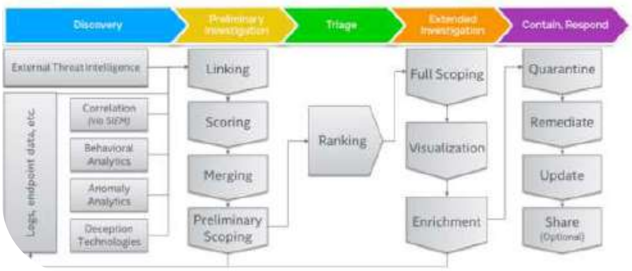
Trellix

Trellix PRODUCT.



THREAT INTELLIGENCE

- *Includes Trellix Insights, Threat Intelligence Exchange, Advanced Threat Landscape Analysis, and Global Intelligence services.*



SECURITY OPERATIONS (SecOps)

- *Encompasses Helix Connect and Enterprise Security Manager for analytics, orchestration, and incident response.*

Trellix SOLUTIONS.

EXTENDED DETECTION & RESPONSE (XDR):

- A cohesive platform that unifies endpoint, email, network, data, and cloud security under AI-driven detection, automated correlation, and guided response workflows

AI AUTOMATION (TRELLIX WISE):

- Powers alert triage, threat summarization, guided investigation, and intelligence enrichment—boosting efficiency (estimated 8 hrs saved per 100 alerts)

HYBRID & MULTI-CLOUD ARCHITECTURE:

- Supports cloud, on-prem, air-gapped, and OT environments with a resilient and modular design

THREAT INTELLIGENCE:

- Taps into real-time global telemetry and curated intelligence to improve detection and proactive defense

INDUSTRY-COMPLIANT DEPLOYMENTS:

- Meets regulatory needs, including FedRAMP High and DoD Impact Level 5 authorizations

SensorFu

SensorFu Oy is a Finnish cybersecurity startup founded in 2016 in Oulu that focuses on network isolation testing for OT (Operational Technology) and industrial environments. Their flagship product, Beacon, verifies whether isolated network segments—like air-gapped, firewalled, or VLAN-separated networks—are truly sealed and continuously alerts on unintended connectivity.

SensorFu PRODUCT.

Beacon

By SensorFu

Always know if your network leaks

ALERTING & INTEGRATION

►*Immediately sends alerts if any 'leak' (successful traffic across supposed isolation boundaries) is detected. Alerts can be routed via Slack, HTTP API, syslog, or integrated into SIEMs*

CORE FUNCTIONALITY

►*A monitoring solution (available as hardware, virtual appliance, or software agent) that continually tests industrial network isolation—firewalls, VLANs, air-gapped segments—by attempting communications (TCP/UDP/DNS/ICMP, etc.) to its central "Beacon Home" system*

DEPLOYMENT MODES

►***Beacon Application:*** *Runs on existing Linux/Windows endpoints (bare metal, VM, container).*

►***Beacon Virtual:*** *OVA-packaged VM suited for data center use.*

►***Beacon Device:*** *Lightweight beacon deployable on Raspberry Pi devices for remote/on-premises networks*

SensorFu SOLUTIONS & APPLICATION AREAS.

Industrial OT networks & smart manufacturing
ensuring true isolation across production environments.

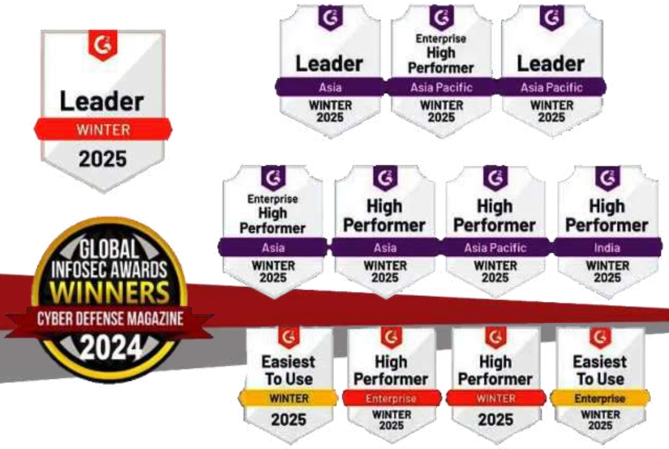
Air-gapped or firewalled setups
including dedicated workstations, management LANs, or secure VPCs.

Critical infrastructure environments
(energy, utilities, defense), with customers including the Finnish Defence Forces

Cloud-based or hybrid environments
such as AWS/Azure/GCP VPCs or containerized network segments

Security camera & management networks
where data protection and segregation are crucial .

CYBLE®



Cyble provides advanced cybersecurity solutions tailored for enterprises, governments, and law enforcement agencies. By leveraging artificial intelligence and machine learning, Cyble delivers real-time insights into cyber threats, enabling organizations to proactively defend against emerging risks. Their services encompass dark web monitoring, vulnerability management, brand protection, and more, ensuring a holistic approach to cybersecurity.

CYBLE. PRODUCT.

The Next Generation Threat Intelligence Products

CYBLE VISION

An award-winning AI driven threat intelligence platform offering over 80 use cases, including dark web monitoring, attack surface management, and incident response.

CYBLE HAWK

Designed for government and law enforcement agencies, this platform provides advanced cybersecurity investigation capabilities.

AMIBREACHED

A tool that allows users to check for dark web exposure with a single click, helping identify potential data breaches.

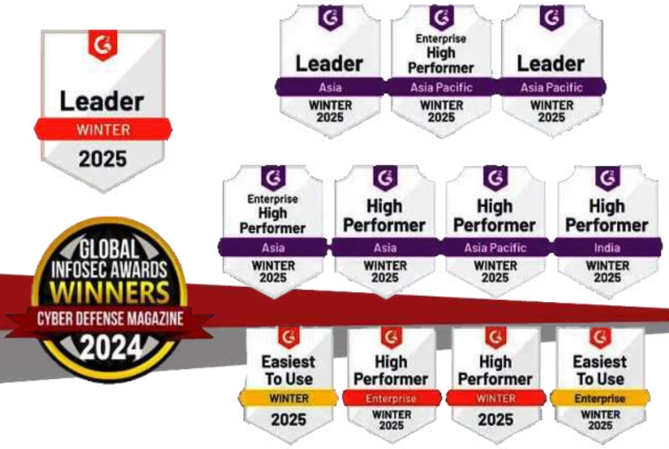
CYBLE ODIN

A comprehensive internet scanning tool that analyzes over 4 billion IPs to detect open and vulnerable cloud files across platforms.

CYBLE. KEY FEATURES.

1. AI-Powered Threat Detection	*Utilizes machine learning models to identify threat vectors and predict attack patterns.*
2. Real-Time Alerting System	*Provides instant notifications for high-risk threats, minimizing noise from low-risk alerts.*
3. Executive Insights Dashboard	*Offers a user-friendly interface for comprehensive threat intelligence management.*
4. Comprehensive Data Processing	*Analyzes over 2 petabytes of data daily from surface, deep, and dark web sources.*
5. Advanced Monitoring Capabilities	*Supports AI-based content targeting, face recognition, and logo monitoring.*
6. Botnet Detection	*Monitors network traffic for anomalies and detects botnet activities using machine learning.*
7. Threat Library	*Maintains a searchable platform for both structured and unstructured threat intelligence data.*
8. Automated Reporting	*Streamlines report generation using AI, saving time and effort.*

CYBLE®



CYBLE. PRODUCT.

ATTACK SURFACE MANAGEMENT: *Identifies and mitigates threats across the entire attack surface to ensure digital security and protect against potential vulnerabilities.*

BRAND INTELLIGENCE: *Safeguards brands against online abuse, including impersonation and phishing, maintaining brand integrity in the digital space.*

CYBER THREAT INTELLIGENCE *Provides AI-driven analysis and continuous monitoring to gain critical insights and enhance organizational defense against emerging cyber threats.*

DARK WEB AND CYBER CRIME MONITORING: *Monitors dark web activities to stay ahead of cybercriminals and protect sensitive information from exploitation.*

VULNERABILITY MANAGEMENT: *Utilizes advanced scanning and risk evaluation to provide a real-time view of exploitable vulnerabilities, enabling efficient remediation strategies.*

TAKEDOWN & DISRUPTION: *Offers powerful services to combat online fraud and cybercrime by effectively disrupting threats.*

THIRD-PARTY RISK MANAGEMENT (TPRM): *Identifies, assesses, and mitigates risks arising from interactions with third parties, ensuring secure collaborations.*

DIGITAL FORENSICS & INCIDENT RESPONSE (DFIR) *Provides comprehensive DFIR services to help businesses effectively manage, mitigate, and recover from cybersecurity incidents*

PHYSICAL THREAT INTELLIGENCE: *Provides cutting-edge insights and real-time updates to secure physical assets and personnel against emerging threats.*

EXECUTIVE MONITORING: *Offers comprehensive protection for high-profile executives by detecting digital threats such as deepfakes and identity theft.*

CLOUD SECURITY POSTURE MANAGEMENT (CSPM): *Delivers a comprehensive toolset for managing and securing cloud assets, ensuring compliance and proactive vulnerability identification.*

BOTSHIELD: *Protects networks from botnet-driven threats, providing insights into DDoS attacks and malicious command-and-control structures.*

INCIDENT MANAGEMENT: *Groups alerts into incidents for faster resolutions, enhanced collaboration, and efficient Security Operations Center (SOC) operations.*

TOP CYBER SECURITY SOLUTIONS PROVIDER 2024
ThreatMon

ThreatMon is an AI-driven cybersecurity platform that provides comprehensive threat intelligence solutions to help organizations proactively detect, analyze, and respond to cyber threats. It integrates advanced technologies like artificial intelligence and machine learning to offer real-time insights and actionable intelligence across various domains of cybersecurity.

ATTACK SURFACE INTELLIGENCE

Continuous monitoring of external assets to identify vulnerabilities

DARK WEB INTELLIGENCE

Monitors dark web for exposed data and Command-and-Control (C2) threats.

SECURITY SCORE MATRIX

Assesses threats with risk scores to help prioritize response.

FRAUD INTELLIGENCE

Detects and mitigates fraudulent activities (phishing, rogue apps, fake ads).

CYBER THREAT INTELLIGENCE

Centralized dashboard for monitoring threats like APTs and ransomware.

THREATMON AI

• AI-powered tool providing proactive threat insights and automated analysis.

By Use Case

1.Asset Discovery & Monitoring

2.Vulnerability Management

3.Data Leak & PII Detection

IT INFRA

Vitado is a cloud cost management and optimization platform developed by Certero. It aims to simplify the governance and cost-management processes of multi-cloud environments, providing organizations with centralized visibility, control, and optimization capabilities. By offering insights into cloud utilization, governance, and cost optimization, Vitado helps businesses reduce cloud expenditures and improve operational efficiency

Vitado SOLUTIONS.

CENTRALIZED VISIBILITY:

By consolidating cloud asset information, Vitado provides a single source of truth, facilitating better communication and decision-making across the organization

UTILIZATION ANALYSIS:

Helps organizations understand their cloud usage patterns, identify inefficiencies, and optimize resource allocation.

GOVERNANCE ENHANCEMENT:

Enables the establishment of governance policies and standards, with automated alerts for non-compliance, ensuring consistent control over cloud assets.

COST OPTIMIZATION STRATEGIES:

Assists in pinpointing areas of excessive spending, implementing cost-saving measures, and improving overall financial management of cloud resources.

BYOL MANAGEMENT:

Supports the effective use of existing software licenses in cloud environments, mitigating compliance risks and reducing costs.

COMPREHENSIVE COST MANAGEMENT:

Facilitates transparent cost tracking and reporting, enabling stakeholders to take ownership of their cloud expenditures and make data-driven decisions.

certero. IT ASSET MANAGEMENT.

Certero delivers a unified IT Asset Management (ITAM) platform designed to provide complete visibility, control, and optimization of IT assets across on-premises, hybrid, cloud, and SaaS environments. Their platform integrates ITAM, Software Asset Management (SAM), FinOps, and SaaS management, enabling organizations to reduce waste, ensure compliance, and make informed, AI-driven decisions.

PowerStudio®

PC Power Management

Certero's PowerStudio is an enterprise-level PC Power Management software solution designed to help organizations reduce electricity costs and carbon emissions by implementing centralized power policies for computers. By powering down machines when not in use, PowerStudio enables businesses to achieve energy-saving goals without compromising user productivity or satisfaction. The solution boasts a typical return on investment in under 12 months.

PowerStudio® PC Power Management SOLUTIONS

ENERGY AND COST SAVINGS:

By enforcing power-saving policies, organizations can significantly reduce electricity bills and carbon footprints.

ENHANCED SECURITY:

Automatically lock down unused PCs, preventing unauthorized access and ensuring compliance with security standards.

IMPROVED MAINTENANCE:

Schedule automatic wake-ups for out-of-hours updates, ensuring systems are patched without disrupting users.

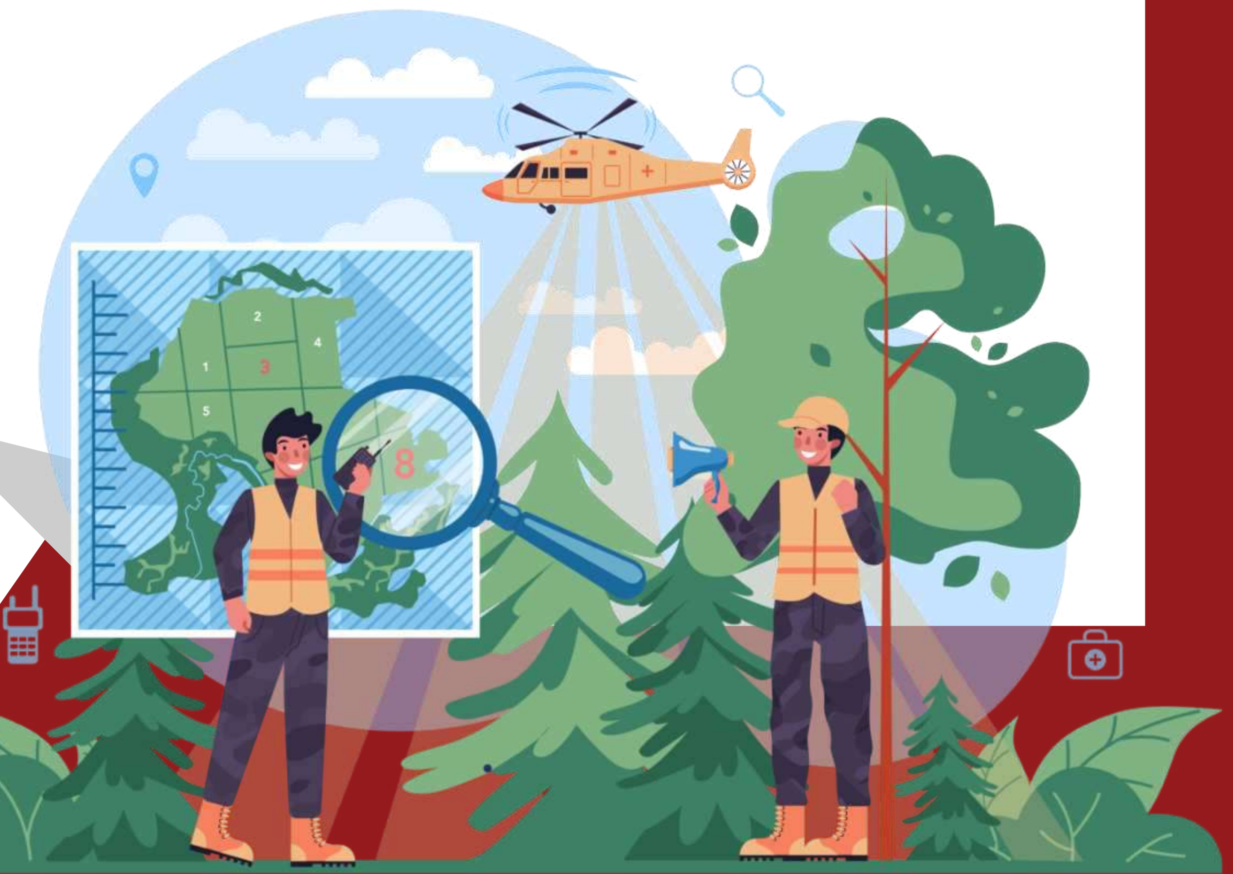
USER ENGAGEMENT:

Involve the user community in power-saving initiatives, promoting awareness and participation in energy conservation efforts.

COMPLIANCE AND REPORTING:

Generate detailed reports to demonstrate compliance with government legislation and internal policies regarding energy usage and carbon emissions.

FOREST RESEARCH SOLUTION



Field-Map is an integrated system developed by IFER – Monitoring and Mapping Solutions, Ltd., designed for computer-aided field data collection with a primary focus on forestry. It offers flexibility ranging from single-tree measurements to landscape-level assessments. The system combines real-time GIS software with electronic equipment for mapping and dendrometric measurements. Originally developed for national forest inventories (NFIs), Field-Map is now utilized in various countries, including the Czech Republic, Ireland, and Russia, supporting large-scale data collection efforts with multiple field teams

LAMPIRAN B

SYARAT KELULUSAN SIJIL AKUAN PENDAFTARAN SYARIKAT

1. SYARAT AM

1.1 Kelulusan ini diberi berdasarkan maklumat-maklumat yang telah disampaikan oleh pihak syarikat tuan.

1.2 Apa-apa perubahan ke atas maklumat-maklumat tersebut hendaklah dibuat kemaskini secara online di Modul Kemaskini Profil di alamat www.eperolehan.gov.my dalam tempoh masa dua puluh satu (21) hari dari tarikh perubahan tersebut berlaku dan sekiranya gagal berbuat demikian boleh mengakibatkan tindakan seperti di para 1.5 di bawah.

1.3 Syarikat hendaklah mengemukakan segala maklumat dalam tempoh yang ditetapkan apabila diminta oleh Kementerian Kewangan Malaysia. Kegagalan berbuat demikian akan mengakibatkan tindakan seperti di para 1.5 di bawah.

1.4 Syarikat hendaklah memastikan bahawa bidang yang telah didaftarkan dalam sijil ini tidak bertindih dengan bidang yang telah didaftarkan ke atas mana-mana syarikat seperti berikut:

1.4.1 Mempunyai Pemilik atau Lembaga Pengarah/Pengarah, Pengurusan dan Pekerja yang sama; atau

1.4.2 Beroperasi di premis yang sama.

1.5 Kementerian Kewangan Malaysia berhak untuk membuat lawatan atau pemeriksaan audit pada bila-bila masa tanpa dimaklumkan terlebih dahulu. Kegagalan mematuhi syarat-syarat pendaftaran, kod bidang dan/atau pendaftaran syarikat tuan boleh digantung/dibatalkan dan syarikat, Pemilik serta Lembaga Pengarah/Pengarah diambil tindakan tatatertib termasuk disenaraihitamkan tanpa apa-apa notis jika didapati maklumat yang diberi tidak benar.

1.6 Syarikat yang baru didaftarkan tidak dibenarkan membuat sebarang perubahan ke atas Pemilik atau Pengarah dalam tempoh enam (6) bulan daripada tarikh syarikat didaftarkan.

1.7 Kegagalan syarikat membuat permohonan pembaharuan pendaftaran selepas satu (1) tahun dari tarikh tamat tempoh pendaftaran boleh mengakibatkan pendaftaran syarikat dengan Kementerian Kewangan Malaysia akan dibatalkan dan dikeluarkan secara automatik daripada Sistem ePerolehan. Syarikat hendaklah membuat permohonan baru.

2. PENGGANTUNGAN/PEMBATALAN PENDAFTARAN

2.1 Pendaftaran syarikat akan digantung/dibatalkan sekiranya didapati syarikat melakukan kesalahan seperti berikut:

2.1.1 Syarikat/pemilik/perkongsian/pengarah/mana-mana ahli pengurusan telah melakukan jenayah dan didapati bersalah oleh mahkamah di Malaysia atau luar negeri atau mengalami tanggungan sivil.

2.1.2 Syarikat menarik balik tawaran sebelum tender dipertimbangkan atau menolak setelah tawaran dibuat.

2.1.3 Syarikat gagal melaksanakan obligasi kontrak-kontrak yang telah ditandatangani dengan Kerajaan.

2.1.4 Syarikat didapati meminda Sijil Akuan Pendaftaran Syarikat dengan tujuan menipu atau lain-lain maksud.

2.1.5 Syarikat membenarkan Sijil Akuan Pendaftaran Syarikat disalahgunakan oleh individu/syarikat lain.

2.1.5 Syarikat didapati membuat pakatan harga dengan syarikat-syarikat lain semasa memasuki tender Kerajaan atau subkontrak tanpa persetujuan terlebih dahulu daripada Agensi Kerajaan yang terlibat.

3. PEMBAHARUAN

3.1 Syarikat tuan hendaklah mengemukakan permohonan pembaharuan pendaftaran tiga (3) bulan sebelum tamat tempoh pendaftaran.

3.2 Permohonan yang diterima selepas tamat tempoh pendaftaran adalah dianggap pendaftaran pembaharuan.

4. HAK KERAJAAN

4.1 Sijil Akuan Pendaftaran Syarikat yang dikeluarkan secara Virtual adalah HAK KERAJAAN. Kerajaan berhak untuk menarik balik pendaftaran/ digantung/dibatalkan sekiranya syarikat dikenakan tindakan tatatertib selaras dengan 1PP/PK8 [Pekeliling Perbendaharaan Perolehan Kerajaan 8].

5. PENYERTAAN PEROLEHAN KERAJAAN

5.1 Dengan pengeluaran Sijil Virtual, Sijil ini tidak lagi perlu ditunjukkan semasa mengambil dokumen perolehan Kerajaan (pembelian terus, tender/sebut harga dan lain-lain kaedah perolehan) kecuali bagi Agensi Kerajaan yang tiada capaian internet.

5.2 Syarikat hendaklah memastikan pendaftaran dengan Kementerian Kewangan Malaysia masih sah laku sepanjang tempoh kontrak berkuat kuasa.

6. PERINGATAN MENGENAI KESALAHAN RASUAH

6.1 Sebarang perbuatan atau percubaan rasuah untuk menawar atau memberi, meminta atau menerima apa-apa suapan secara rasuah kepada dan daripada mana-mana orang berkaitan perolehan Kerajaan merupakan suatu kesalahan jenayah di bawah Akta Suruhanjaya Pencegahan Rasuah Malaysia 2009 [*Akta 694*].

BIG SCOPE PROJECT.

SIME DARBY PROPERTY SELATAN SDN BHD

Project Title: Proposed Development for Pagoh Higher Education Hub, Mukim Jorak, Daerah Muar, Johor Darul Takzim

Project Value: RM 19,000,000.00

Project Background: The Pagoh Higher Education Hub (PEH) is a major educational campus that houses institutions such as IIUM, UTHM, UTM, Pagoh Polytechnic, and Shared Facilities. To support a modern digital learning environment, the ICT infrastructure must align with the latest technologies. IshanTech was engaged to design, install, maintain, and upgrade ICT systems that meet the goals of a 21st-century campus.

FELDA GLOBAL VENTURES RESEARCH AND DEVELOPMENT SDN BHD

Project Title:

1. Menjalankan Projek Pembangunan Infrastruktur Bioinformatik “High Performance Genomics Cluster” di Pusat Bioteknologi Felda, FGV

2. Menjalankan Projek Pembangunan Perisian dan Fasiliti Berkaitan “Integrated Breeding Software and Database System” di Unit Biak Baka Sawit

3. Menjalankan Projek Pembangunan Perisian Genome Browser dan Sistem Pangkalan Data Multi-Dimensi Kelapa Sawit di Pusat Bioteknologi FGV

Project Value: RM 2,499,060.00

Project Background: Projek ini melibatkan pembangunan infrastruktur bioinformatik dan sistem perisian untuk menyokong penyelidikan dan pembangunan FGV dalam bidang bioteknologi dan genomik kelapa sawit.

BIG SCOPE PROJECT.

KHAN BANK

Project Title: Endpoint Security Solution for Khan Bank, Ulaanbaatar, Mongolia

Project Value: RM 3,200,000.00

Project Background: IshanTech was appointed to plan, design and implement a full suite of endpoint protection solution for Khan Bank - one of the largest consumer banks in Mongolia. The organization-wide implementation, which aimed at further enhancing Khan Bank's security posture, incorporated new advanced threat protection mechanisms into over 5,000 endpoint devices ranging from PCs, Laptops, ATM Machines, Servers and Mobile Devices spread across multiple branch offices nationwide. The scope of work also covered integration of the provided solution with some of Khan Bank's existing systems.

MALAYSIAN ELECTRICITY SECTOR

THE DETAILED INFORMATION CANNOT BE DISCLOSED AS THE COMPANY HAS SIGNED A NON-DISCLOSURE AGREEMENT (NDA) WITH THE CLIENT.

Title: Uplifting ICT Service Quality: “UPLIFTING ICT SERVICE QUALITY: END TO END MONITORING FOR 5 myXXX SERVICES PROJECT”

Project Value: RM10,057,185.62

Project Background: Malaysian Electricity Sector Institution has awarded a contract for the supply and implementation of ICT-related works. This contract follows a direct negotiation process and is based on Tender Document RFX 4000037535. The scope includes licensed software procurement and selected works to enhance the institution’s digital infrastructure. The contractor is responsible for completing the works within six months from the commencement date and providing maintenance services during a 12-month Defect Notification Period (DNP), at no additional cost to the institution. The initiative supports the institution’s ongoing efforts to modernize its systems in alignment with strategic digital transformation goals.

MALAYSIAN BANKING INSTITUTION

THE DETAILED INFORMATION CANNOT BE DISCLOSED AS THE COMPANY HAS SIGNED A NON-DISCLOSURE AGREEMENT (NDA) WITH THE CLIENT.

Title: SIEM Refresh – Professional Services, License Subscription & Maintenance Support

Project Value: RM8,036,897.76

Project Background: A Malaysian banking institution engaged professional services for a Security Information and Event Management (SIEM) system refresh, with a total project value of RM8,036,897.76. The project scope includes the procurement of professional services, license subscriptions, and comprehensive maintenance support. As part of the initiative, Splunk Enterprise term licenses will be deployed for both production and test environments over a two-year period (2024–2025), supported by standard success plans. Additionally, the project includes software license maintenance and dedicated support services to ensure system reliability, performance, and compliance with security operations standards. This initiative represents a strategic effort by the bank to strengthen its cybersecurity capabilities and enhance its monitoring infrastructure.

MALAYSIAN BANKING INSTITUTION

THE DETAILED INFORMATION CANNOT BE DISCLOSED AS THE COMPANY HAS SIGNED A NON-DISCLOSURE AGREEMENT (NDA) WITH THE CLIENT.

Project Title: Splunk Licenses and Subscriptions for User Behavior Analytics and Enterprise Security

Project Value: RM7,452,000.00 (Per Year) *(Total for 3 Years: RM22,356,000.00)*

Project Background: A Malaysian banking institution has initiated a strategic investment in cybersecurity through the procurement of Splunk licenses and subscriptions to enhance User Behavior Analytics (UBA) and Enterprise Security capabilities. With a total project value of RM22,356,000.00 over three years (RM7,452,000.00 annually), the initiative includes a comprehensive suite of licenses and support services. The scope covers:

- *3,000 licenses for Splunk UBA with standard support*
- *3,000 licenses for Splunk UBA content subscription*
- *2,000 licenses for Splunk UBA with standard support*
- *2,000 licenses for Splunk UBA content subscription*
- *35,000 licenses for Splunk UBA term license, inclusive of content subscription and standard support*
- *1,000 licenses for Splunk Enterprise with a standard success plan*
- *1,000 licenses for Splunk Enterprise Security with a standard success plan*

This initiative is part of the institution’s broader effort to strengthen its security posture, leveraging advanced analytics and behavioral monitoring to detect threats, mitigate risks, and support regulatory compliance across its digital infrastructure.
